

## Single-Hook Style

This fitting will securely tension and hold the anchor in the bow roller channel. This unit will free up use of the bow cleat and prepare the anchor for sea condition assuring you peace of mind. This fitting is not designed to take the strain of the rode of a boat at anchor. Overall length is 12", the threaded hook has 1½" of adjustment for ease of installation.

CAT. NO.	Description	Price
46-250-1	Single-Hook Tensioner for 5/16" chain	\$114.00
46-250-2	Single-Hook Tensioner for 3/8" chain	\$127.25

## Claw-Hook Style

Our new design features a shorter overall length than our current design and a "devils claw" type hook. The new claw design will grab 1/4", 5/16" and 3/8" chain. The toggled claw enables you to grab the chain quickly and easily. Two 1/4" mounting holes are provided in the base of the unit and the claw has 1-1/2" of finite adjustment. The overall length closed is adjustable between 11" and 13" with a 2-1/8" throw or quick release. The handle/lever is secured when closed with a ball type QR pin attached with a lanyard.

CAT. NO.	Description	Price
46-450	Claw-Hook Tensioner for 1/4", 5/16" and 3/8" chain	\$145.25

## Mini Anchor Chain Tensioner

We have developed this new chain tensioner with a smaller footprint in mind. The body including the handle is only 6" long. Two 1/4" fasteners (not included) mount the unit to the deck. A flexible wire connection to the hook allows easy catching of either 3/16" or 1/4" chain. Take up is 1-1/8" to 4-1/2" depending on hole location. Overall length is 8-1/2" - 10-1/2" long, height 1-1/2". Length of body with handle is 6"

CAT. NO.	Description	Price
46-300	Mini Anchor Chain Tensioner	\$84.95

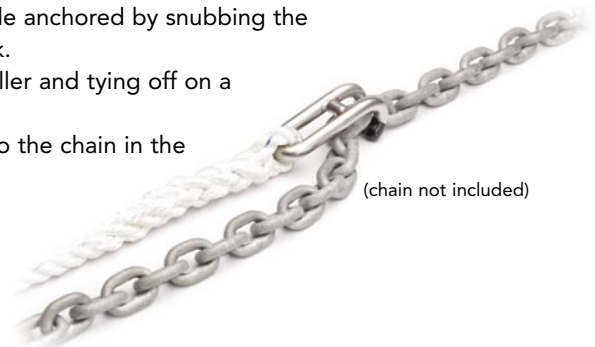

## "Captain Hook" Chain Snubber

Our new "Captain Hook" Chain Snubber can be used a few different ways:

1. Use the claw and attached line to relieve tension from your windlass while anchored by snubbing the chain overboard and tying off the line to a cleat or samson post on deck.
2. Use the snubber on deck for security to hold the chain in your anchor roller and tying off on a cleat while under way for piece of mind.
3. Relieve the tension on the windlass (like in 1) by attaching the snubber to the chain in the anchor roller and pulling back and tying off securely.

All T-316 stainless, includes 12' of 1/2" 3-strand nylon with professional eye splice.

CAT. NO.	Description	Price
46-465	Snubber for 1/4", 5/16" and 3/8" chain	\$75.75

(chain not included)
