STA-SET X PLUS™

A low stretch vectran-blend balyard for club racers

A polyester cover and New England Ropes' patented unidirectional core of Vectran and MFP make this line an excellent value for its ultra low stretch performance and durability.

BENEFITS Very low stretch and lightweight.

APPLICATIONS Excellent on club racers & performance cruisers.

- Halyards
- Guys

SIZES 6 • 8 • 10 • 11 • 12 • 14mm

COLORS

(all with tracers)

- White
- Red
- Green
- Black
- Blue

T-900™

Low stretch and low creep main balyard

Our pioneering blend of Dyneema SK75/Technora core with a durable polyester jacket.

BENEFITS A combination of high strength, low weight plus low creep, makes this an excellent choice for static loads.

APPLICATION Low stretch, lower weight, and a more economical option to V-100.

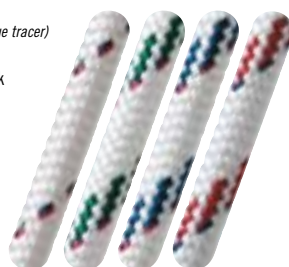

- Halyards
- Guys

SIZES 6 • 8 • 10 • 11 • 12 • 14 • 16 • 18 • 20mm

COLORS

(all with fine red & blue tracer)

- White
- White w/Green Fleck
- White w/Blue Fleck
- White w/Red Fleck

VPC™

NEW

Unique mid-tech product for sheets and balyards

Utilizing Hybrid Performance Technology™, VPC features a strong core of blended Vectran and polyolefin with a durable polyester cover.

BENEFITS A high strength low stretch alternative to a high tech line. VPC fills the gap between performance polyester lines and ultra high performance racing lines.

APPLICATIONS Designed with the casual racer and offshore cruiser in mind, VPC will result in noticeable performance improvements in these applications:

- Mainsheets
- Halyards
- Jib Sheets

SIZES 8 • 10 • 12mm

COLORS

- Blue
- Red
- Green
- White

FLIGHT LINE™

Strong and lightweight sheets; perfect for tapering

This new line will certainly take-off with its lightweight, non-absorbent polypropylene cover and 100% braided Dyneema SK75 core.

BENEFITS Strong, lightweight, flexible, low-stretch line with a braided core that is easily tapered. Soft on the hands and gets even softer with use.

APPLICATIONS Perfect as light air spinnaker sheets on larger one designs such as Ynglings, Lightnings & Thistles. Also used as mainsheets for performance dinghies.

- Light Air Spinnaker Sheets
- Mainsheets
- Control Lines
- Topping Lifts

SIZES 6 • 8 • 10mm

COLORS

(all with tracers)

- Yellow
- Red
- Green
- Blue

SALSA LINE™

Ultra strong, ultra soft sheet for larger one designs and keelboats

Your hands will love this soft and exceptionally strong single braid constructed of Dyneema SK75 plus spun filament polyester.

BENEFITS Very strong, yet soft and easy to grip. Has proven to be a great kink-free sheet for larger dinghies and keelboats. Easy to splice.

APPLICATIONS Perfect for boats that require high tensile, such as J24s, Sonars, Finns, and larger performance boats.

- Mainsheets
- Genoa Sheets
- Traveler Lines

SIZES 6 • 8 • 10mm

COLORS

- Salsa Red
- Steel Gray
- Green
