ENDURA BRAID™

COLOR COATED CORES

High performance, strength and durability for the competitive sailor

Specially engineered 12-strand Dyneema SK75 core with Marine-Tech coating and a 24 carrier braided polyester cover.

BENEFITS Size for size, outperforms any other UHMWPE line! Very high strength-to-weight ratio, very low stretch, low creep and outstanding durability. Coated braided core is ideal for durable, tapered sheets and halyards.

APPLICATIONS Running rigging requiring a durable, low stretch, lightweight line, such as:

- Sheets
- Halyards
- Guys
- Topping Lifts
- Reef Lines
- Low-Stretch Control Lines

SIZES 5 • 6 • 8 • 10 • 11 • 12 • 14 • 16 • 18mm

COLORS

(all with tracers)

- White
- Black
- Solid Red
- Solid Blue
- Solid Green
- Red Check
- Blue Check
- Green Check

ENDURA 12™

RE-ENGINEERED

Ultra light and ultra strong

100% Dyneema SK75 12-strand single braid, treated with our unique Marine-Tech coating for excellent abrasion and UV resistance.

BENEFITS Ultra high tensile, lightweight, flexible and will not absorb water.

APPLICATIONS

- Cascade Lines
- Laser Upgrade
- Vang Systems
- Halyards
- Cunninghams

SIZES 3 • 4 • 5 • 6 • 8 • 10 • 11 • 12 • 16mm

COLORS

- Blue
- Red
- Gray
- Clear (White)

ARC™

NEW

“Bullet Proof” jacket with a Vectran or optional Dyneema/Spectra core

Utilizing our Hybrid Performance Technology™, ARC (Abrasion Resistant Cover) combines the heat resistant fibers Technora and Nomex with colored polyester to improve abrasion resistance and aid in line identification.

BENEFITS Prevents surface melting and surging when the line is released under very high loads. The optional Spectra/Dyneema core results in a light weight, more supple line than the Vectran, and is favored for lines that require frequent adjustment.

APPLICATIONS

- Runner Tails
- Mainsheets
- Genoa Sheets

Note: Now available in cover only!

SIZES 8 • 10mm

COLORS

- Red
- Black
- Green

V-100™

COLOR COATED CORES

The ultimate in high load performance

Braided 100% Vectran 12-strand single braid core treated with our unique Marine-Tech coating with a highly durable and attractive polyester cover.

BENEFITS Size for size, the strongest, lowest stretch high-tech line. Good abrasion resistance and virtually no creep.

APPLICATIONS Designed especially for competitive race boats.

- Main and Genoa Halyards
- Afterguys
- Guys

SIZES 5 • 6 • 8 • 10 • 11 • 12 • 14 • 16mm

COLORS

- White (with red & orange tracers)
- Blue with tracers
- Red with tracers
- Black with tracers
- Green with tracers

V-12™

Highest strength, lowest stretch 12-strand rope

Superior braided 12-strand single braid treated with New England Ropes' special Marine-Tech coating.

BENEFITS Highest strength, lowest stretch and creep of any 12-strand rope; good fatigue resistance and easy to splice.

APPLICATIONS Excellent for high load situations where a polyester jacket is unnecessary for the full length of the line; a rigger may add a cover where needed.

Use for:

- Halyards
- Backstays
- Afterguys
- Control Line Systems

SIZES 3 • 4 • 5 • 6 • 8 • 10 • 11 • 12mm

COLORS

- Gold (Clear)
- Red
- Blue
- Gray
- Green
