

NEW SERIES OF WINCH HANDLES

In addition to the extremely light black aluminum handles in two sizes: 200 mm (8 inches) and 250 mm (10 inches), there is also the classic chromed or natural polished bronze solution, always 250 mm long. Three different grips are available: the single, the double and the new "ball-grip".

The **handle arm** made of forged aluminum with lightening holes is extremely light and resists the heaviest torsion.

The **grip** is covered with rubber to give a firm hold and runs on two ball bearings to increase its efficiency.

All the models are available with or without the **lock system** which automatically locks the handle on the winch.

ALUMINUM L = 200 mm		
MODEL	HAND GRIP	WEIGHT (kg)
2011	single	0,40
2012	ball-grip	0,46

ALUMINUM L = 250 mm		
MODEL	HAND GRIP	WEIGHT (kg)
2021	single	0,43
2022	ball-grip	0,49
2023	double	0,54

CHROMED BRONZE L = 250 mm		
MODEL	HAND GRIP	WEIGHT (kg)
2031	single	1,40
2032	ball-grip	1,46
2033	double	1,53

* Custom solutions are available on request: wooden grips, different colors, natural bronze, special engravings.
